REDWOOD CITY, SAN MATEO COUNTY, CALIFORNIA, SATURDAY, JULY 24, 1926.

ESTABLISHED 1907

VOLUME LXIV., NUMBER 17

SENATOR SHORTRIDGE TO SPEAK HERE THURSDAY

OUR HURT WHEN BUS AND AUTO COLLIDE

A collision between the S. P. bus and the Emerald lake car resulted in the injury of four persons on the bus, the wrecking of both cars, bus, which was driven by A. Nowlin, was on Brewster street. The sedan, driven by Mrs. Linda Rossetti of Oak Knoll, was on Myrtle street. The cars collided at the intersection. Both turned over.

Neither car caught on fire, however, and by the time the firemen arrived the injured persons had been removed from the bus. Those injured were A. W. Nowlin, driver of the bus, A. W. T. S. Miller and George E. Pike and Nowlin were seriously injured.

Mrs. Rossetti in the car was injured. Felix Rossetti, one of the occupants of this car was injured.

IS STILL A CHANCE

TO REGISTER FOR CAMP. A circular letter was sent to all residents this week by Camp Director Edward A. Barrer of the training camp at Memorial stadium stating that there was a chance for 25 more boys to register this camp this year.

A number of boys have registered in as soon as possible in that they may know just how to prepare for the camp near Pescadero. A number of conditions at the camp are as follows:

There is a water tap on each tent platform and all company streets are level. There is a good sprinkling each tent and a good shower bath. The tent is a good one and is being leveled, watered and. No dust here, but a hard field for parades, baseball, football and games.

The dam is in place and the swimming hole will be glad heart. There is a diving board to be sure—a float, and a young boat this. A 20-foot or a long like, what is nice—a hot shower bath. Step this way! Here are 8 new in a special cement floor—flooded with lots of hot water.

Following the courtesy of seeking firms, trucks will be free to take the boys to camp, thus cutting down the expense by two dollars. It will now be \$17 for the bus at the camp or \$8 for the car. This includes all during the time spent in camp.

REGULATIONS. Between the age of 16 and 18 years early entry for the sitting.

DIOS. The LAST EDITION. The Theatre. Play-Tuesday 26 and 27. "Here Comes Charlie" THE REVIEW.

REDWOOD CITY YOUTH DROWNS WHILE IN SURF

A picnic party at the Beach at Santa Cruz ended in tragedy for a local family Sunday afternoon, when Herbert C. Hubbard, 19, son of Mr. and Mrs. Herbert P. Hubbard of this city was seized with cramps and drowned in the surf.

The youth with his brother, Stanley, 17 years old, went in swimming in the surf, while their parents and a younger brother watched them from the beach. Herbert was seized with cramps, and his cries for help were answered by his younger brother. The father also dashed into the water and went to the assistance of his sons. The younger brother was unable to save the drowning boy and was himself in danger. The father rescued the younger son and went to the assistance of the elder boy, but he had disappeared beneath the water before he could reach him.

The body of the drowned boy was not recovered for half an hour, and by that time all resuscitation proved futile and his body was removed to the morgue in Santa Cruz, where an inquest was held. The tragedy was seen by hundreds who stood helplessly on the beach, which was thronged at that time.

The young man was a native of Vancouver, B. C., and was employed as a millman by the Progress Lumber Co. of this city. The family makes its home in Oak Knoll, as it has for three years.

Funeral services were held Tuesday from the parlors of Layne & Tinney. Rev. R. J. Currie conducted the services, which were followed by interment in Alta Mesa cemetery.

WELL KNOWN ATTORNEY DIES IN SAN MATEO
Funeral services were held for Barlow Ferguson, well known attorney of San Mateo, who passed away at his home in that city Saturday morning.

Ferguson was a native of Utah and was 66 years of age. For the past nine years he had been a resident of San Mateo and had maintained a law office in Burlingame. He was one of the most ardent advocates of prohibition and other reform measures, and had often appeared before the board of supervisors here with measures of reform. The latest, and one on which he was actively engaged at the time of his death was a plan for re-districting the county—to make the supervisorial districts as nearly equal in population as possible.

The deceased was quite active in the social world, and was state secretary of the Exchange Club. He was a member of Burlingame lodge of Masons; of Lodge of Perfection No. 14, of San Mateo; of the Order of the Eastern Star; of the Order of the Temple of Mystic Shrine; and of the Temple of the Holy Spirit.

Surviving the deceased are his widow, Mrs. Marion Ferguson, two sons and a daughter. Though born in Utah where he spent the greater portion of his life he had a great admiration for California. The last words of his will were: "It is my desire and direction that the last resting place of my earthly remains be in the fair soil of California."

His son, Blaine Ferguson, was named as the executor of the will.

BIG LAND SALE IN SAN MATEO MADE THIS WEEK

One of the largest realty deals made in this county in recent years was consummated this week with the sale of the Parrot estate in San Mateo. The holding, which included several hundred acres was purchased by a Los Angeles syndicate for subdivision at a price in excess of one million dollars.

The sale has caused quite a flurry in real estate row and the division of the large holding and its sale in residence lots is expected to cause a wave of prosperity among the realtors of the county. This city, is visiting with his uncle here.

ORDINANCE WILL REGULATE AUTO WRECKING BUSINESS
The business of wrecking automobiles and maintaining wrecking yards, will be regulated by an ordinance which was given its first reading before the board of trustees Monday evening. The ordinance was prepared by City Attorney Mansfield following a great deal of criticism of the appearance of certain pieces of property on Oak Avenue and on Chestnut street which are being used as wrecking yards and where cars in all stages of being wrecked make the premises unsightly.

The new ordinance provides for a license fee for the maintenance of a wrecking yard, the fee to be \$100 per year. It also provides that the premises of wrecking yards must be kept clean and in order, and that no cars are to be wrecked or parts of wrecked cars allowed to remain on any public street.

Another provision of the ordinance is that before any car can be wrecked, the license number, make of car and engine number must be reported to the police department. This is a precautionary measure to provide against the purchase and wrecking of stolen cars.

The ordinance further provides that before a license will be granted for maintaining a wrecking yard, that notice must be posted on the property and published for two weeks in a newspaper. This will give owners of surrounding property opportunity to protest before a license is granted.

MARIE McLAUFFE AND JUDGE RABPEY MARRIED
The Mt. Carmel Catholic church was the scene Saturday morning of a pretty wedding when Miss Marie McLauffe of this city and Rudolph Rabpey of San Bruno were united in marriage. The ceremony, which was followed by a nuptial mass, was performed by Rev. C. E. Kennedy. Mrs. Eugene McLauffe, sister-in-law of the bride, was matron of honor and Eugene McLauffe was the best man. The little daughter, Joanne McLauffe, was the flower girl. Two brothers of the bride, Edward and Frank McLauffe, acted as ushers. The bride was given away at the altar by her father, J. P. McLauffe.

Following the ceremony the young couple left on a trip through the southern part of the state, and upon their return will make their home in San Bruno.

The bride is the daughter of Mr. and Mrs. J. P. McLauffe. She is a graduate of the Sequoia Union High School, as well as the San Jose Normal School. Since her graduation from the latter institution she has distinguished herself as a teacher in the schools of the principal of the school at South San Francisco and later was a teacher in a San Mateo school.

Rabpey is a young attorney in the northern part of the county and is at present city recorder of the City of San Bruno. He is also a candidate in the approaching election for the office of assemblyman.

Many Candidates Seek Office

The time for filing nomination papers for state and county offices expired on Thursday evening. There is a long list of candidates seeking office and from now until the thirty-first of August a strenuous campaign will be waged. The big surprise of the week was the filing of a nomination petition by J. J. McGrath of San Mateo for the office of county auditor at the present time. It is generally understood that Mr. McGrath would be opposed for the primary election. The filing of a great surprise among the politicians. The following is a complete list of the nomination petitions filed in the office of County Clerk Elizabeth M. Kneese.

Geo. H. Buck, Justice, Superior Court.
Ray Griffin, Justice of the Peace, Third Township.
Michael Sheehan, Justice of the Peace, Second Township.
John C. Corbett, Justice of the Peace, First Township.
Maurice F. Boland, Constable, Second Township.
Ferguson Owen, Constable, Second Township.
Elsa S. Melton, Member of Assembly, 42nd Assembly Dist.
A. W. Woodhams, Justice of the Peace, Fifth Township.
D. A. Cashin, Associate Justice, District Court Appeals, Full Term.
John C. Corbett, State Board of Equalization, 1st.
Nels Anderson, Justice of the Peace, Second Township.
Herbert G. Mayo, Justice of the Peace, Second Township.
Clarence V. Thompson, Supervisor, 5th Township.
John Joseph Shield, Auditor, 5th Township.
Percy William Jackson, Justice of the Peace, Second Township.
Norman Frey, Constable, Fifth Township.
William K. Sonne, Constable, Second Township.
Thomas C. Ginner, Justice of the Peace, Second Township.
James Branch, Constable, Fifth Township.
F. B. Grill, Constable, Third Township.
Louis E. Linkel, Member of Assembly, 42nd Assembly Dist.
C. A. L. Cole, Constable, First Township.
Ellis C. Mason, Justice of the Peace, First Township.
Walter M. J. Justice of the Peace, Second Township.
Arthur M. Free, Representative in Congress, Eighth District.
William A. Brooke, Coroner and Public Administrator.
Walter J. Gilliam, Constable, Second Township.
Thomas C. McGovern, Sheriff, 4th Township.
Fred A. Simmons, Constable, 4th Township.
Walter H. Moore, Constable, 5th Township.
Thomas J. Lennon, Chief Justice, Supreme Court Full Term.
James Lawrence Cooper, Treasurer.
James D. Rapley, Constable, Third Township.

CITY BRIEFS

Mr. and Mrs. L. G. Corbin are receiving the congratulations of their friends upon the birth Sunday of a baby boy. The little fellow is the second boy in the family. The family resides at 519 Roosevelt avenue, and the father is a mail carrier in this city.

Miss Lorraine Dickey, the efficient and accomplished chief deputy tax collector, is spending her annual vacation at her cottage in Brookdale. Miss Dickey is one of the best known young ladies on the peninsula.

Charles G. Lambert, well known member of the firm of Lambert & Walter, has written friends here of the delightful visit he is having in his old home in Bradford, England. He and Carl Muller left June 5th for a three month's sojourn in Europe. Muller is visiting his old home in Germany.

Miss Maud Stillson, the popular teacher, is visiting friends in Modesto, where she formerly taught school for two years. Miss Stillson is a teacher in the local school department.

Paul Cloud, son of Mayor Chas. Cloud of Aberdeen, Washington, and nephew of City Superintendent of the Schools Roy W. Cloud of J. L. Johnston of Santa Cruz is visiting his parents, Mr. and Mrs. J. P. Johnston of this city.

BUS SERVICE TO BE RESUMED THROUGH TOWN

A committee of five appointed at the meeting of the Redwood City Chamber of Commerce last Monday has successfully placed the matter of resuming the bus service through the business section of the city. The Peninsula Rapid Transit Company has agreed to run its buses through the business section of the city. The bus service which formerly was given on Main street and Broadway was discontinued at the first of this month by the company, and only three stops are now made by the buses, which now run only on the highway.

This change, said Peterson, was only a trial. The company, he stated was losing money by running buses through the city because of the longer time necessary, the extra stops and the necessity of crossing the railway track twice.

Under the new arrangement the buses will stop only at certain corners through the city, the corners being as follows: Going north, stops will be made at Five Points, the railroad crossing, Phelps street, at Ryan's Drug Store, at the court house, at the railroad crossing at Broadway, at the intersection of Broadway and the highway and at Wellesley avenue. South bound buses will make practically the same stops except at the corner of Main street and Broadway. Here they will stop on Broadway, a short distance west of the corner. The arrangement of having the bus stop at this point in going south and at Ryan's Drug Store in going north, will avoid congestion at the corner of Main and Broadway, where traffic was formerly held up whenever the bus would stop.

The committee which was successful in restoring the bus service to the city was as follows: Lee Ross, chairman, George Hinton, Chas. Cussen, P. A. Ryan and D. L. Walters.

The bus company is going to ask the co-operation of the city government in making this arrangement successful, and will probably ask to have certain sections set aside for buses to stop where no cars will be allowed to park. The company also plans to run two express buses in the morning and evening each day for the convenience of those who wish quick transportation than the local bus will be able to give. No time has been announced for these buses yet, but they will be run when the company's records show the greatest amount of traveling to be done.

The changes as outlined will go into effect at the first of the month, and the matter will be taken up with the railroad commission immediately to have the schedules altered.

The first changes were discussed at the Monday noon Luncheon of the Redwood City Chamber of Commerce. President William Pierson of the P. R. T. Co. and Vice-president J. J. Regan were present and presented the company's side of the argument.

A suggestion was made by Frank K. Towne that a town bus be put into service to meet the regular buses at the highway. Regan stated that the amount of business here would not make the additional service profitable.

After the matter had been given considerable discussion, upon a motion by Dave L. Walters, the committee of 5 was appointed by President Hinman to go into the details of the matter with the bus company.

SELLS BEER; FINED \$150
Paul Hermosillo, brother of Stack Hermosillo, proprietor of Stack's Place on the highway, was arrested by federal officers under Col. Elmer Cox of the Federal Prohibition squad and brought in to the court of Justice of the Peace Ray Griffin Thursday. Stack when given the opportunity of entering a plea or of using his perogative of entering it later, said that he would enter it later. Judge Griffin said that he would be heard next Thursday at 1:30.

SERVICES HELD FOR PATRICK H. DONNELLY

Funeral services were held Thursday at Mt. Carmel Catholic church for Patrick H. Donnelly, who passed away at his home at 21 Birch street as the result of a paralytic stroke which he suffered several weeks ago. Services were conducted by Layne and Tinney. A high mass was celebrated and was followed by interment in Holy Cross cemetery at Colma.

The stroke which ended in his death occurred on a ship in the Panama canal while he was en route to New York. He was taken to New York, where he was joined by his wife and son, A. M. Donnelly of this city. Brought home by his relatives, he was thought to be recovering, but a sudden relapse Monday evening resulted in his death.

Donnelly had been a resident of this city for the past three years ago he retired from active work, where he had been for forty years an employee of the firm of DuPont de Nemours & Co. Five years ago he retired from active work with a pension from that company in reward for his long and faithful service.

The deceased had taken an active interest in politics and had during the administration of President McKinley been chief of the Bureau of Labor, a position analogous to that of Secretary of Labor at the present time.

The deceased was a native of St. Clair, Pa., and was 69 years of age. He is survived by his widow, Mrs. Helen Donnelly and a son, A. M. Donnelly of this city; by a son, D. E. Donnelly of Chicago; and a daughter, Mrs. Alice Murphy of South Pasadena. A third son, John Donnelly, was killed in a boiler explosion on the Battleship Missouri twenty-two years ago. He was a midshipman on his war vessel. The remains are buried in the national cemetery, Arlington, Washington, with a splendid monument built by the government over the remains of the young man who in life was no less a hero than the man who died on the field of battle. It is understood the bones will be removed to Holy Cross cemetery at Colma to rest in repose along side the remains of his father.

CHAMBER OF COMMERCE FORMED AT SAN CARLOS
Preliminary steps toward the formation of a chamber of commerce were taken at a meeting held in San Carlos Wednesday evening. The meeting was held in the school house and was well attended. John Cowgill, station agent of the S. P. Co., and former trustees of San Carlos, opened the meeting with a brief explanation of its purposes. H. S. McCord was elected temporary chairman and J. M. Edling, temporary secretary.

A committee of five, consisting of H. P. Wrigley, A. J. Stebbins, H. Jamieson, B. A. White and J. M. Edling, was appointed to prepare and constitute and by-laws for the new organization.

The question of securing an electric sign to be placed over the highway at Cypress avenue was discussed, and A. E. Davis stated that the businessmen of the town were willing to give \$600 towards its erection. A committee consisting of J. A. Yake, D. L. Stewart and Clement Goble was appointed to secure prices on various types of electric signs.

K. A. Winter, in order to begin an industrial development at San Carlos, offered one acre of land free to any industrial concern which would erect a plant at San Carlos. An address on co-operation and civic development was made by Sterling Price.

When the roll was passed for

LARGE GATHERING EXPECTED TO ATTEND

Senator Samuel M. Shortridge will open his northern campaign for renomination in Redwood City on next Thursday evening, July 29, with an address to the people in which he will give a full account of his stewardship. It is fitting that he should open the campaign in his home city, where he is liked and loved.

The senator will receive an ovation as admirers from all points of the peninsula will be here to greet him.

The meeting will take place in the Firemen's hall on Webster street. Come early and secure a front seat for there will not be standing room for those who come late. The senator is to receive an enthusiastic reception on that evening, when he will give a full account of the accomplishments of the late congress. All are invited to the meeting which is to be the largest political gathering in the history of Redwood City.

SERVICES HELD HERE FOR MRS. VAN ARTSDALEN
Funeral services were held Monday afternoon at the home of Mrs. Georgia Barrett Van Artsdalen, who passed away late Friday afternoon at the home of her daughter, Mrs. E. Lassig at 146 Madison streets. The services were conducted by Rev. Walter Doty of the Episcopal church and were followed by interment in Alta Mesa cemetery.

Mrs. Van Artsdalen was a native of New Jersey and was 77 years of age. For the past three years she had been making her home with her daughter. She leaves no other relatives here.

MARRIED SUNDAY AT ST. PETER PARISH HOUSE
At a pretty, quiet wedding Saturday morning at St. Peter's parish house, Miss Gladys Beeman became the bride of Robert Bruce of this city. The service was performed by Rev. Walter Doty of the Episcopal church and was followed by a wedding breakfast at the Birch street home of the bride's mother, Mr. and Mrs. Fulton Woodlidge acted as attendants and a brother of the bride, S. L. Beeman, gave his sister away.

Following the wedding the bride and groom left on a wedding trip to the northern part of the state and to Oregon and Washington. Mrs. Bruce has for several years been chief in the art department of the high school. The groom is a business man of this city.

signatures 46 names were signed as members. The next meeting of the newly formed organization will be held on next Wednesday evening.

Geology School Tours Country by Railway

The geology department of Princeton university has just started a traveling school on a tour of the country in a specially designed Pullman car, to study the geology and natural resources of North America. The twenty-two pupils and instructors in the party will travel about 10,000 miles in two months, and will then be examined at Princeton. Dr. Richard M. Field is in charge. This is a view in the classroom car.

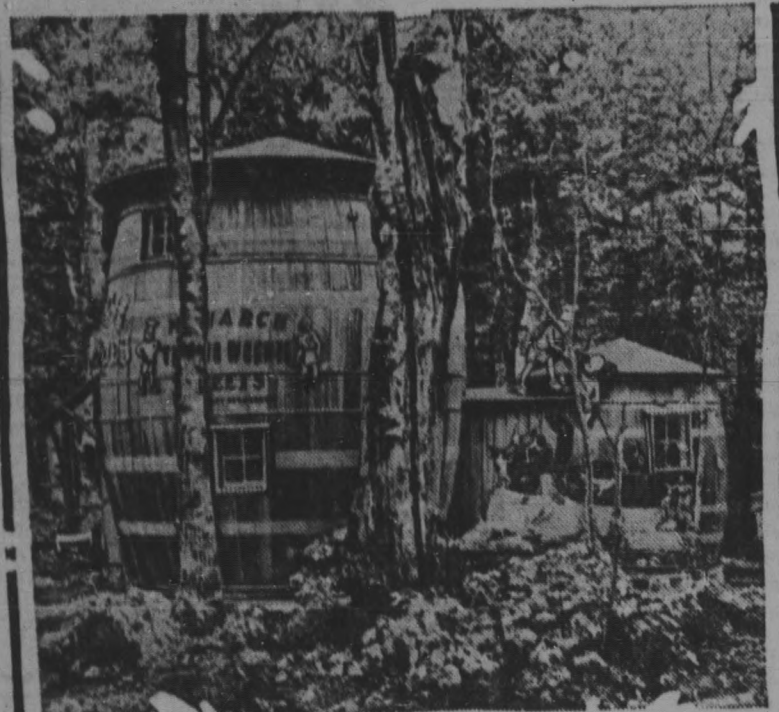

Carrying Former Emperor of Korea to His Tomb

This view of the funeral procession of Prince Yi, former emperor of Korea, shows the catafalque being carried to the mausoleum between lines of mourners dressed in white, the mourning color of the Orient.

The Barrel in Teenie Weenie Land

Here is the unique summer home presented by admirers of the Teenie Weenie to Mary Dickerson Donahy, wife of William Donahy, creator of the Teenie Weenie. So far as known, this is the largest pickle barrel ever constructed. It is 16 feet high, with a capacity of 21,000 gallons. There is a living room downstairs, with sleeping room upstairs. The barrel in the rear is made into a kitchen. The small room is 9 feet in diameter, while the living room is 12 feet. "The Barrel" is located on Grand Sable lake, near Grand Marais, Mich. School children from Grand Marais, dressed in Teenie Weenie costumes, conducted the presentation ceremonies.

New Supreme Dictator of the Moose

At its convention in Chicago the Loyal Order of Moose elected Norman G. Heyd of Toronto, Canada, as supreme dictator, and named Philadelphia for the next convention. Mr. Heyd is shown above, at right, with J. Albert Cassidy, his predecessor in the office.

ALL AROUND THE GLOBE

Cinnamon bark can be obtained from trees 200 years old. Shillings have been a part of Great Britain's currency for over five centuries. Three-quarters of the supply of ivory comes from Africa, but Antwerp is the chief market. Chemists have found that an important dye base can be extracted from cornucobs at little expense.

Leather dust is sold to fertilizer manufacturers. Work done by a tractor in 24 days would take almost 200 days if done by a horse. John Quincy Adams was the first President to take the oath of office on Friday. The great mass of ocean water has a temperature not much above the freezing point.

FITTINGLY CHOSEN

Albert J. Kobe, a full-blooded Chippewa Indian, is leader of the United States delegation to the International Y. M. C. A. congress in Helsinki, Finland. He is shown in the costume he will wear on occasion there.

HE'S ONLY 109

Above is pictured Joseph Beland of Calumet Island, Quebec, who recently celebrated his one hundred ninth birthday. He doesn't look his age, and says he has no intention of letting Father Time pin him to the mat for many years to come.

A Sure Method

"I wish I knew how to make money in the stock market." "That's easy. Just watch my operations and do exactly the opposite."

Glory in Work

There is a perennial nobleness and even sacredness in work. Were he ever so benighted, forgetful of his high calling, there is always hope in a man who actually and earnestly works.—Carlyle.

Art of Reputation

The average woman has a vocabulary of about 800 words, according to a Middle Western newspaper. It is the turnover which produces the volume.—Sioux City Tribune.

RADIO

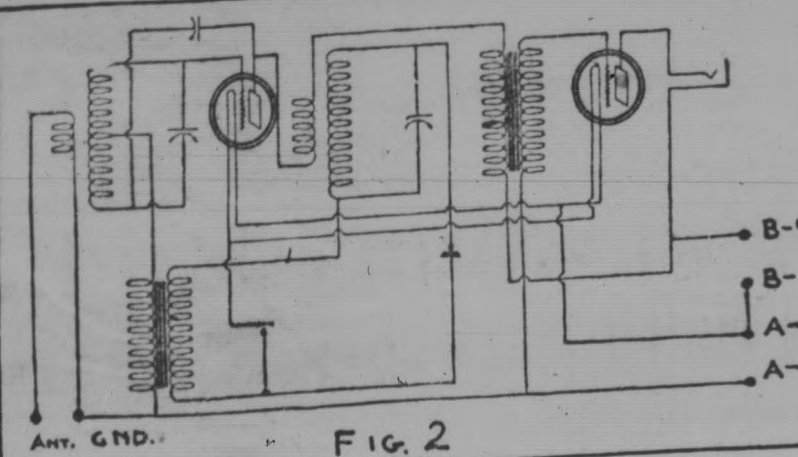

Diagram of Circuit Employed in a Center-Tapped Coil on the Radio-Frequency Stage.

By R. S. DORNBRÖCK, In the Chicago Evening Post. It is the purpose of the writer to herein point out the application to a well-known type of reflex circuit of a circuit modification long known but little used.

This is the use of a center-tapped coil in the radio-frequency stage, the lower terminal of which is connected to one of the small midjet condensers, the opposite side of this midjet condenser being connected to the plate terminal of the tube.

This circuit modification is probably most used in certain superheterodyne circuits, wherein a center-tapped loop is employed in connection with

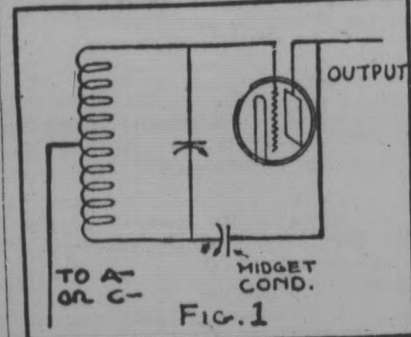

Diagram of Circuit Modification is Here Shown.

the midjet condenser "to obtain regenerative action." Then again we see circuit diagrams showing the same arrangement in a tuned radio-frequency circuit, where it is described as "the Rice method of neutralization."

Cuts Out "Blanket" Stations. A diagram of this circuit modification is shown in Figure 1. Whatever its action, the point is that it exerts a most beneficial influence upon the reflex circuit.

In the circuit set up by the writer, selectivity was very greatly increased, local stations which covered from 15

to 25 degrees in the regular arrangement were made to cover only 4 or 5 degrees on the dial. This was in a location about ten miles from the nearest station, and on an antenna 100 feet long with 35-foot lead-in.

By another location nearer to the bulk of the stations, and on an antenna 75 feet long with 30-foot lead-in, locals were confined to 2 or 3 degrees on the dials, excepting one which was only a few blocks away. This station operates on 250 meters, and blanketed out everything below it on a straight-line frequency condenser, but slightly below 300 meters even this station could be entirely eliminated. All stations above were received excellently.

Tap Is Only Change.

A diagram of the circuit employed is shown in Figure 2. Nearly every one possessing a set employing the circuit which is shown modified in this diagram will recognize it. It has been very popular and the modification outlined in this diagram will help it perform more efficiently in an area where a great majority of sets will pick up at least a couple of stations at once. This circuit is noted for its great volume and low operating frequency, but in its original form tunes a little too broadly for efficient service.

No information of a technical nature is given, as to do their own tinkering will understand from the diagram exactly what is to be done. No changes in apparatus need be made excepting to bring a center tap from the antenna tuning coil secondary.

Controls by Midjet Condenser.

The midjet condenser should be located on the panel, since it provides an excellent volume control.

Incidentally, the writer has observed in very recent issues of various radio magazines that this method of controlling radio-frequency is being quite frequently advocated.

Your Grid Leak and Its Important Duty

The action of the grid leak seems to be little understood by the average fan. Great care may have been taken in wiring up the set and in buying the best of parts. Yet when the receiver is put into operation the results secured are very poor. Very often the whole trouble lies in the grid leak, which may not be of the correct value or may be noisy in operation.

To make the action of the grid leak clear we will compare it to the carburetor on an automobile. The carburetor vaporizes or breaks up the gasoline, then mixes it with a certain proportion of air to form an explosive mixture. The supply of air taken into the carburetor is regulated by a choke valve. The carburetor of a radio receiver is the detector tube and the choke valve is the grid leak.

If the choke valve on the carburetor is closed too much, it does not allow enough air to enter and makes the mixture rich with the result that the motor chokes up or may stop altogether. If the grid leak is of such a value that it allows too high a negative charge to accumulate on the grid the tube chokes or paralyzes and the set will not operate or operates very poorly. This is the same effect as when the choke valve on the carburetor is closed too far and does not allow enough air to enter.

If, on the other hand, the grid leak is of such a value that the negative charge on the grid leaks off too rapidly the receiver loses its sensitivity. You can readily see, therefore, that it is important that the size of the grid leak be correct so that the amount of energy the grid can handle is always just right. Use a good-quality grid leak. Secure three or four different sizes and try them out until you find one that gives the best results. Do not try to save money by buying a cheap grid leak or one made by an unknown manufacturer, for very often a poor grid leak is the unsuspected cause of poor or noisy reception.

When the Tubes May Be Cause of Your Trouble

When you notice that your radio set is losing in volume, the distant stations fade and disappear, and the quality sounds like a rock crusher, what do you do?

Very likely you look for poor connections, test the batteries or possibly replace them, change the tubes around, add a "C" battery and jiggle grid leaks. And to discover? Probably, that the quality remains as poor as before. What next?

Under such perplexing circumstances did you ever give the tubes a thought? Tubes do not last indefinitely. Gradual deterioration of their filaments ultimately results in poor reception. The filament of a tube may still burn, but the coating put on its surface to aid emission of electrons—those tiny particles which give the tube its "life"—eventually disappears. When the coating vanishes the radio set loses its sensitivity and volume and may become very noisy. It is then time to buy new tubes.

When Buying Your "B" Battery Eliminator

It is important when buying a "B" battery eliminator to determine whether or not the device is capable of supplying enough current to operate the set, for if it does not distortion will result. To test the capacity of a "B" battery eliminator connect it to the receiver with which it is to be used and connect a high-resistance voltmeter across its terminals. If, when a loud signal is tuned in, the pointer of the voltmeter remains almost stationary at a voltage which is sufficient to properly operate the set, the device will prove satisfactory.

Prevents Damage

Ammonia or soda water, quickly applied, will prevent damage from acid dropped while taking a hydrometer reading of the "A" battery.

SHORT CIRCUITS

Remove from the set immediately any tube that has become microphonic.

Toroidal and other circular shaped coils, when tuned with a 0.005 variable condenser, should contain 105 turns of No. 24 DCC wire wound on 1 1/4-inch tubing 9 inches long.

To charge a battery directly from the DC light line (not AC), connect four 100-watt lamps in parallel and insert them in the negative light line, one side of which is connected to the minus "A" battery binding post. The positive light line is hooked directly to the "A" battery positive.

this seaweed, and radio stations are considering its use for the studio.

You can make your own chemical rectifier with a quart mason jar filled with a solution of borax (saturated) in which have been inserted two one-half inch rods of aluminum and lead, each spaced one-half inch from the walls of the jar.

When it is difficult to solder joints, especially between the antenna and the lead-in, they can be joined together by carefully twisting the ends of the aerial wires together, applying a coat of shellac over the joint and then wrapping with tape. This arrangement will protect the joint and will not corrode.

Radio, like the motor car, seems to have progressed "from the inside out," for the first types of receivers stressed internal workmanship first and appearance last. Today, not only must internal performance be of the best, but exterior workmanship must be of equal excellence. Do you remember the first types of motor cars? Nuff sed!

Golden State

News of Interest to All

New pumping equipment has been installed on five Wasco and Shafter ranches.

Checking up on early produce sent to market from the Delano district is a pleasant task, as the crops have been bountiful.

Glenn county starts the new fiscal year with a balance of \$262,471. This was revealed in the annual report of Ed E. Ball, city treasurer.

Enthusiasm for the fourth western Sonoma-Marin county dairy show to be held at Valley Ford is increasing, according to the committee.

The Suisun board of trustees donated to the Reams Post, American Legion, a lot upon which the Legion is expected to build a new hall.

Preliminary surveys indicate that San Joaquin county will exceed by \$5,000,000 its agricultural production of 1925, which amounted to \$50,000,000.

With eight new members added during the past month, the recruiting program of Company A, 184th Infantry, at Merced, has been favorably cited.

Postal receipts at the Delano office for the year ending June 30 were 52 per cent greater than for the same quarter last year, according to the postmaster.

The fifth annual institute of public health nurses of California opened at the university of California recently with nearly 100 nurses from all parts of the state in attendance.

Arrests in Modesto for the fiscal year 1925-26 total 742 compared to 614 for the previous twelve months. This was revealed in a report submitted to Mayor Sol P. Elias by Chief of Police Lee Smith.

In order that State Boy Scout leaders may be better able to organize and instruct their troops, the University of California is now giving a course in Scout Leadership at the regular summer session.

Sacramento is declared to have a water supply ranking in cost and purity among the foremost of all cities in the nation in a bulletin issued recently by Dr. W. W. Cross, ou. The Sacramento health officer.

Company G, 184th Infantry, of Chico of which John D. Hubbard is captain, is second on the honor list of twenty-three companies with a percentage of 94.77. The first place was given to the detachment in Petaluma.

The Faculty Club of Davis, an organization composed of officers and teachers at the College of Agriculture of the University of California, has issued articles of incorporation in the office of the secretary of state.

By pounding up the old adobe bricks of the mission of Lower California, and distributing them in water, Professor G. W. Hendry of the Division of Agronomy of the University of California is able to push agricultural history back to the year 1697, to tell you that grapes were grown by the padres.

Over indicating growth of Sacramento during the last twelve months, City Assessor C. W. Mier announces a \$5,676,895 increase in assessed value of property on the 1926-1927 assessment rolls just completed. The total assessed value of property in Sacramento, including operative property, is \$112,571,095.

P. B. Cross of San Francisco, who has secured a permit for a diversion of 150 second feet from Deer Creek, Tehama county, for the manufacture of ice. Pain power, has made application to the state division of water rights for additional rights on the same stream involving the diversion of 150 second feet more and the storage of 12,000 acre feet per annum.

Who has the oldest plough in Marin county? There is going to be an exhibition at the state fair this year of old farm machinery, and Marin county has one of the first agricultural sections to be developed in California, is going to enter with an exhibit. The oldest plough in good condition after decades of use will be put into the farm mechanics' museum at the University.

California ranks as one of the largest nursery stock producing states in the Union, according to figures being supplied by the California department of Agriculture. While the complete data is not yet ready for publication, the records show that there are over 1,528 nurseries in this state having plantings of deciduous, coniferous and ornamental stock in an area of 3,792 acres.

EXPLORE GREAT FALLS FROM AIR

Cataract in Inaccessible Northeastern Quebec Said to Rival Niagara.

Toronto, Ont.—For almost a hundred years the existence in northeastern Quebec, near Labrador, of a waterfall and cataract rivaling Niagara has been known. But so inaccessible is the location lying as it does some 400 miles northeast of Lake St. John, that only the most intrepid adventurers have ever set eyes on it.

This summer the Quebec government is sending out an expedition of 50 men, in three airplanes, to explore the locality and report on the commercial possibilities of the waterfall as a power development.

On Hamilton River. The falls are situated on Hamilton river, which finds its outlet in the Atlantic through Labrador. The river is about as large as the Ottawa, so that the flow of water is less than at Niagara, but there is a perpendicular drop of about 800 feet, compared with Niagara's 160, and including a series of smaller falls and rapids above and below, extending over a distance of 12 miles. The total fall of the Hamilton river is 700 feet. The canyon below the falls is said to be unique.

The falls and canyon are sometimes described as McLean's falls and McLean canyon, after John McLean, a Hudson's Bay company employee who visited them in 1829 and afterward lived in Elora, Ont. According to the geographic board of Canada the correct name of the falls is Hamilton, after the river, though they sometimes go by the name of Grand falls, Patteechevan falls, Pitsheetanon falls or Mistapostock falls.

The Hamilton river is about 700 miles long and has a drainage area of 29,100 square miles.

Described as Phenomenal. A. P. Law of the department of mines of the Canadian government, says: "Such a fall (700 feet) would not be extraordinary for a small stream in a mountainous country, but is phenomenal in a great river like the Hamilton. The basin into which it precipitates itself at this point is nearly circular and about 200 yards in diameter. It is surrounded on all sides by nearly perpendicular rocky walls, 500 feet high, except at the narrow cut at the head of the falls and where the river issues from the basin."

The noise of the falls has a stunning effect, and although deadened because of its inclosed situation can be heard for more than ten miles away as a deep, booming sound. The cloud of mist is also visible from any eminence within a radius of 20 miles.

It is estimated that there is 300,000 electric horse power in the falls.

Wyoming Pioneer State in 'Petitcoat Government'

Cheyenne, Wyo.—"Petitcoat government" has had a long way in Wyoming. From the time Wyoming, then a territory, in 1890 blazed the way for woman's suffrage by enacting an equal suffrage law, which later was enacted into a state statute, women have played many varied roles in its government.

The appointment of Mrs. Esther Morris in 1903 by the territorial government as the first woman justice of the peace in the United States culminated in 1924 with the election of Mrs. Nellie Tayloe Ross, the first woman governor.

Other milestones in woman's progress in public life have been marked in Wyoming by the selection of the first jury on which women served at Laramie, Wyo., in 1870; the election of Mrs. Estelle Reed Meyer in 1894 as state superintendent of public instruction, who is now the general superintendent of Indian schools, and the operation of the entire municipal governments by women of Jackson in 1920 and Cokesville in 1922.

Talk With Tramp Brings Discovery of Grant's Desk

Eureka, Calif.—A chance conversation with a tramp led an antique dealer to the discovery of a desk he identified as one used by General Ulysses S. Grant, while stationed at Fort Humboldt, near here, during 1853-54.

"You should have seen the old desk in the building I slept in last night," the hobo told the antique dealer. The dealer found it in an abandoned building and identified it as Grant's by a diagram obtained from another antique dealer during the Panama-Pacific exposition in 1915.

The desk had been thought burned in a building which was destroyed by fire many years ago. A search is now being conducted for a locker, also said to have been used by the Civil war general.

\$98,800,000 in Furs Sent From Alaska Since 1867

Seattle, Wash.—Furs shipped from Alaska to the United States since its purchase in 1867 have been appraised at \$98,800,000. The value of last year's output was \$3,000,000. Ninety per cent of the world's fur seals are in a herd owned by the United States government in the Pribilof Islands, off the coast of Alaska. The herd numbers approximately 700,000. Government sales of fur seal skins during the fiscal year ending June 30, 1924, totaled \$28,523.

Expert With Knife

Despite the sneers of the super-perfect, the great art of eating with a knife is not lost in America. One 100 per center, observed on a Pennsylvania diner out of St. Louis, whose pockets bulged with oil contracts, did it with infinite dexterity, conveying semi-liquid morsels to his mouth without losing a drop. He also spurned napkin and finger bowl. There was really no call for either. He had not missed himself up a bit.—Outlook.

Warner, professor of aeronautics in Massachusetts Institute of Technology, appointed assistant secretary of the navy in charge of aviation. 3—Scene at unveiling of monument commemorating landing of first American troops at St. Nazaire, France.

NEWS REVIEW OF CURRENT EVENTS

President Begins Vacation, Fairly Pleased With the Record of Congress.

By EDWARD W. PICKARD

SENATORS and representatives have scattered to their homes or to summer resorts, following the adjournment of congress; and President and Mrs. Coolidge with their entourage have gone to the secluded camp on Lake Osgood in the Adirondacks which is the summer White House. The Chief Executive jumped into his vacation with unwonted eagerness and celebrated his first day by catching a three-pound pike for dinner. His camp is quite isolated but it is expected that he will entertain a good many visitors who will be put up in the several cabins attached to the house. Before starting for the north Mr. Coolidge ran down to Philadelphia and delivered a Fourth of July address to 30,000 people at the Sesqui-centennial exposition. His speech, which dwelt mainly on the unimprovable excellence of the foundation principles of the American government, was perhaps rather platitudinous but studious and well phrased.

WASHINGTON correspondents reported that the President was fairly well satisfied with the record of the first session of the sixty-ninth congress. His main achievements were the reduction of taxes, the funding of war debts and the approval of the world court resolution. All these measures were urged by the administration, and they also were supported by most of the Democrats in congress. In the matter of farm relief legislation the President did lose out, but he is not dismayed by this nor greatly disturbed by the rumbles of party revolt in the corn belt. He believes his opposition to bills for price fixing will be vindicated in time, and he doubts that the Republican farmers will join with the Democrats in attacking the tariff. All in all, the President believes the Republican party has nothing to be ashamed of and should not be considered as being on the defensive; and while he continues to hold aloof from primary contests, he will, as head of his party, do his utmost to help it win victory in the November elections.

SENATOR CAMERON of Arizona successfully killed by filibustering the resolution to limit primary campaign expenditures of candidates for senator to \$25,000. The Reed committee made public the names of contributors to the Anti-Saloon league Prohibition Amendment, which were given in the course of the inquiry into the Pennsylvania primary. The John D. Rockefeller, father and son, were the most liberal givers to the dry cause during the last eighteen months, having contributed \$90,500. Chairman Stanton of the wet organization said it had collected approximately \$800,000, less than half of which had been contributed directly to the national association by sympathizers or allocated to it by state subsidiaries. The largest contribution—\$5,200—was from a Mrs. Van Gerbig of Connecticut.

The investigation into the Pennsylvania primary was practically completed and the committee separated to meet again in Chicago on July 26 for the purpose of inquiring into the expenditures during the Smith-McKinley senatorial primary contest. Senator Reed hopes to unmask at that time some of the influences behind the world court resolution, which is as objectionable to him as prohibition.

Brazilian Crisis Laid to Deflated Currency

Rio de Janeiro.—Brazil is faced with an industrial crisis brought about by the increasing value of its money, due largely to deflation by withdrawing a large amount of paper from circulation.

Many wholesalers and retailers have large stocks of manufactured goods on hand which were bought abroad before the milreis had reached its

present value. Some of them are compelled to unload their goods for fewer milreis than they paid for them.

One of the largest banks here, the Bank of Recife, has suspended payments and filed a petition in bankruptcy, which was granted. Assets are listed at more than \$4,000,000 and the liabilities at nearly that much.

The monetary crisis is considered the principal cause of the failure and a sugar crisis, due to overproduction in the state of Pernambuco, a contributing cause.

SALEM, the Massachusetts town famous for its "witches" and for its one-time prominence as a shipping port, is three hundred years old, and has been celebrating the anniversary with picturesque doings. On the main day of the celebration Vice President Charles G. Dawes reviewed a big parade, attended a banquet and delivered a message of greeting from President Coolidge, besides making a lively speech on his own behalf.

Speaking of General Dawes, he has let it be known that he intends to

spend much of his summer vacation on the stump in a coast to coast campaign for the reform of the senate rules.

TWO big American cities have been partly tied up by street transportation strikes. In New York the motormen and switchmen of the subway division, Interborough Rapid Transit company, quit work and in a few days were joined by the men on the elevated lines. They demanded higher wages. Hundreds of strikebreakers were employed by the company and partial service was maintained, but New Yorkers found it difficult to get to their work and home again.

Street railroad employees of Indianapolis also struck for more pay and for recognition of their national union. The public there was not seriously inconvenienced. The police, remembering the strike riots of 1913, were armed with saved-off shotguns and arrested a number of strikers who attacked street cars.

THE new board of mediation created by the Watson-Parker railway labor act has been appointed by President Coolidge and has organized for work. The members are Samuel E. Winslow of Massachusetts, manufacturer and former chairman of the house interstate commerce committee; Edwin P. Morrow and G. W. W. Hanger, who were on the old railroad labor board; Carl Williams, editor of the Oklahoma Farmer Stockman, and Ulysses Davies, mediator for the Department of Labor. The first thing before the board is the wage demand of the four big railroad brotherhoods, the members of which ask increases averaging one dollar a day each. The railroads in the eastern district rejected the demands, saying they could not raise wages when they had not yet earned the return of 5% per cent prescribed by the Interstate Commerce commission under the transportation act. Both sides agreed to submit the dispute to the board of mediation. Railroads of the South and West are expected to reach an agreement with the brotherhoods to let the board decide the matter.

EVERYONE in the remotest degree interested in automobiles will be interested in the figures just announced by the Department of Commerce, showing that one person in every seventy-one in the world owns a car. On the basis of a world population in 1925 of 1,748,000,000, this means that more than 24,000,000 persons are automobile owners. The figures reveal that the United States leads with the highest ratio to population—one to every six persons. Hawaii has one to every eleven, and Canada one to thirteen. In the lower latitudes is Afghanistan, with one to 1,200,000 persons; Hecla, with only four cars, one for every 225,000; Abyssinia, one to 133,333; and China, one for every 31,871. The Solomon Islands, with 151,000 persons, have only two automobiles, while Liberia has 54, or one for every 54,250.

In 19 of 59 countries surveyed, at least 90 per cent of the automobiles owned were of American manufacture; in seven, American made cars constituted 80 per cent. South America had the greater proportion. European countries showed a much lower ratio.

RUNIC inscriptions recently found in the state of Washington have been translated by Prof. Oluf Ojanson who declares the discovery is the greatest Norse record ever found in the United States. The first inscriptions, found near Spokane, tell of the journey of a band of vikings across the continent in 1010 A. D. and of their desperate battle with Indians and the burial of their dead. The second group of Runes, in Grant county, Washington, describes Norsemen swimming for their lives across the Columbia river to escape the Indians and starving beneath the river cliffs. It also is dated 1010.

UNDER the new Illinois boxing law Chicago has again become a prize fight center. In the first affair, Sam Mandell of Rockford captured the lightweight championship from Rocky Kansas of Buffalo. The referee said Sam outpointed Rocky in the ten-round bout, but his decision was severely criticized.

Bankers say they would be apprehensive if the milreis continued to rise in value, as commodity sales have fallen off 50 per cent in nine months. President Bernardes, in an effort to increase confidence, has announced that the government will not force the milreis to the pre-war rate.

The chief sufferers seem to be the textile mills of Sao Paulo, as the high tariff is nullified to a great extent and local manufacturers cannot compete with prices of American and English-made goods.

The KITCHEN CABINET

(© 1926, Western Newspaper Union.)

Half of the joy of life is in little things taken on the run.

Who has no inward beauty, none perceives, though all around is beautiful.

GOOD THINGS TO EAT

For an afternoon tea cake try this tasty little one which you will like:

Orange Cakes.—Cream one-third of a cupful of butter, add one-fourth of a cupful of sugar, cream well and add four teaspoonsful of baking powder, one-half teaspoonful of salt, the grated rind of an orange and two cupfuls of flour. Put out this into small cakes, prick with a fork and bake in a quick oven. Immediately after taking from the oven, open with a fork and insert a lump of butter. Serve at once.

Maple Cookies.—Take one cupful of granulated sugar, one cupful of maple sugar, one cupful of butter, two well-beaten eggs, two tablespoonsful of water and flour to make a stiff dough. Cut into balls, roll in powdered sugar and bake in a hot oven.

Cheese Balls.—Take one and one-half cupfuls of grated cheese, add one tablespoonful of melted butter, two tablespoonsful of flour, and when well blended add three tablespoonsful of milk, a dash of pepper and salt and stiffly beaten whites of two eggs. Form into balls, roll in cracker crumbs and fry in deep fat. Drain on brown paper. Serve with lettuce salad.

Cheese Salad.—Dissolve a tablespoonful of gelatin in four tablespoonsful of water, add half a pound of grated cheese and a pint of whipped cream, season well with salt and paprika, with a few dashes of cayenne. Pour into a wet mold and allow to become firm. Turn out and cut into slices, serve on lettuce with mayonnaise dressing or with any desired dressing.

Peach Sherbet.—Put a pound of sugar and a quart of water on to boil for twenty minutes; let cool, then add one and one-half cupfuls of peach pulp, the strained juice of an orange and the juice of half a lemon. Freeze. Half of the water may be used and a pint of rich milk, making a richer ice.

For a mint sherbet, use a bunch of mint cooked in the water and add the other ingredients and thin cream; freeze.

Duchess Cream.—Take six tablespoonsful of tapioca, cook until clear in water to cover, cool, add a pinch of salt, one cupful of sugar, the juice from a can of pineapple, the juice of two oranges and two lemons; cook until thick. When cool add the pineapple cut into dice, one cupful of nuts and a pint of whipping cream. This makes enough to serve a dozen amply.

A Few Choice Desserts. A delicious and well prepared dessert will often help a plain meal which precedes it, when the dishes were not all that one wished. A plate of stuffed figs, dates or prunes will often serve for a finish to a meal, leaving one fully satisfied.

During the warm weather lead dishes and frozen creams and water ices are greatly appreciated. The water ices are not especially nourishing, and with a hearty meal one needs a light dessert.

Two or three foods digest better in the stomach than a combination of six or more. If we treat the body as we would a nice piece of machinery we will not overwork it.

When we overeat we waste fuel and choke the fires of the body engine through imperfect combustion. A stuffed furnace can neither draw well nor give off heat.

Orange and Lemon Sherbet.—Take the juice of two oranges, two lemons, and two cupfuls of sugar with a quart of thin cream and freeze as usual.

A mint sherbet to serve with a roast leg of lamb is prepared with a cupful of shredded mint, fresh and well washed. Pour a cupful of boiling water over it and let stand well covered to steep for ten minutes, then drain and add the mint water to the juice of two lemons, a cupful of sugar and a cupful of thin cream, adding enough water to make the mint liquor an even cupful. Freeze as usual.

Apricot Sherbet.—This is delicious with any dinner. Take a can of apricots, put them through a sieve, add more sugar and a can of water. Freeze.

Fruit Dessert.—Take a pound of marshmallows and a cupful of pecan meats, cut fine, cut the mallows into quarters and add enough whipped cream to blend and hold them and the nuts together. Put a tablespoonful of pineapple juice into a sherbet cup, fill with the whip and garnish with pineapple or a cherry.

Cream Peach Cake.—Bake a layer cake, using two tablespoonsful of butter, one cupful of sugar, two well-beaten eggs, one-half cupful of milk and one and one-half cupfuls of flour sifted with two scant teaspoonsful of baking powder. Put very ripe peaches, peeled, through a sieve, sweeten and mix with almond-flavored whipped cream. Use for filling.

Nellie Maxwell

Physicians in Association

The American Medical association is the national organization of the medical profession and is made up of the combined membership of the various state medical associations, which, in turn, are made up of local medical societies. Nearly 90,000 physicians are members of this association.

It's the Manner of the Flop

JUDGE ROBERT M. CLARKE'S change of front on the world court is now supported by documentary evidence over his own signature. In a letter to J. Perry Wood of December 21, 1925, Judge Clarke came out strongly for the court in the following words:

"The World Court, in my opinion, presents another and different question. I am a firm believer in the establishment of a tribunal for the settlement of international questions and I have no objection and would support the policy of the par-ty, as declared by its platform, to adhere to the World Court subject to the so-called Harding-Hughes-Coolidge reservations.

"To restate my position, it is this: That I believe it would be the policy of our party and a large part of our citizens, to advocate and believe in adherence to the World Court and I offer no opposition to such action by our government."

He said practically the same thing to the Palo Alto Times, and while the interview was never repudiated, there might be the possibility of unintentional mis-quotation, although others to whom Judge Clarke had said practically the same thing, felt that the interview correctly represented the judges then views.

However, it is not so much the flop as the manner of it that is most open criticism. One may properly change one's views, and it in the light of newer developments or fuller study the judge became convinced that he was wrong it would be the part of manliness to announce his change of view.

It will be recalled that the judge came out rather mildly against the world court after the Illinois primary, which he construed as adverse to the court arguing that he had never favored the court. Then as other primaries, in his opinion, also indicated a sentiment against the court he came out stronger and cited these public expressions as further justification for his own attitude.

It is this course that has given Judge Clarke the appearance of being a political opportunist, veering with each change of sentiment. A frank and public change of view would not carry this implication; in fact, it would have created the valuable asset of political courage.—Stockton Independent.

Gas Tax Bill Unconstitutional

ON May 22, 1925, Governor Richardson received an opinion from the Attorney General in regard to the gas tax bill which was then before the Legislature. The Attorney General held that if the bill was signed it would repeal the present two cent gas tax which Governor Richardson had approved in the 1923 session and would leave all gasoline free from tax from July 24th to September 30th, 1925; that the Senate amendments were unconstitutional, but if they were held valid all gas money would be frozen until January, 1927. Governor Richardson issued a statement at that time in which he said:

"Here is a pretty mess of bungling by legislative legal lights who framed the bungled bill and wrote the bungled pork barrel amendments. If signed, the result would be as follows:

"1. Nine weeks when millions of gallons of gasoline sold would escape all tax.
"2. The loss of more than eight millions of dollars of road money to all the counties and the state.
"3. The act as written would raise no money until May, 1906 one year hence.
"4. Pork barrel amendments so badly bungled as to be unconstitutional.

"5. If pork barrel amendments are valid, then all gas money would be frozen and all work stopped until next session of the legislature.
"6. To permit a referendum of this unconstitutional and bungled bill would be futile and expensive."

In his letter to the Governor the Attorney General said:

"From this analysis of the last three paragraphs of the bill it is to be manifest that they are concerned with subject matter not cognate to the field covered by the existing statute, that they should have been enacted as separate legislation, and that they must be held to be invalid of the constitutional provision that an act embrace but one subject. The provisions in said paragraphs are so related and inter-dependent that they cannot be segregated in order that some of them be saved."

Forest Fire Protection

NOW in the season of forest fires California is much cheered by the news from Senator Shortridge that the Second Deficiency Bill will carry an additional \$100,000 appropriation to enable the Secretary of Agriculture to construct trails, fire lanes and telephone lines, and to make other improvements in the Angeles, Cleveland, Santa Barbara and San Bernardino National Forests. A long fight has been waged for adequate protection for these forests and property adjoining them.

NEEDED-A SUGGESTION

THE old Central School on Broadway has been sold, and if present plans do not miscarry, will be torn down sometime during the fall of next year to make way for business buildings. But in their agreement to sell the board of trustees of the school have retained the old town clock.

Now the old town clock is something of an institution. For thirty years it has looked down from its exalted position upon the goings and comings of the people of Redwood City, and its pleasant face has been an oracle to the commuter who has overslept, and who sprints double-quick from the first moment he sees the old town clock. The old clock is also somewhat of a problem. Where shall it be put when the old school is torn down? Shall we have a clock tower on one of our street corners like a number of European cities? Or shall we ask the county to graft the old clock onto the top of the court house dome? That's what the school board wants to know.

The old clock also has its history, and like most things which have formed a part of the life in a small town has a sentimental value. The clock was purchased with funds raised by a theatrical performance given on Saturday, August 3, 1896. The affair was arranged by Mrs. A. S. Hallidie. It was staged in the auditorium of the then new school, the building which the clock was to adorn. The actors were Miss Florence Doyen, Miss Daisy May Cressy, Miss Norma Preston, C. M. Elliot and A. J. Purnell. Miss Tressa Brooks was the accompanist.

Funds were raised and the clock was presented to G. P. Hartley, principal of the school, for the school district. It was soon after installed, and has since that time been faithfully serving the people of Redwood City.

The old clock has a warm spot in the hearts of the people of the town, but who will suggest a place to put it. Suggestions sent to the Times Gazette will be gladly published.

BOARD HEARS ARGUMENT ABOUT LIGHTS; FINDS IT'S ABOUT NAMES

For two whole hours the board of supervisors of this county listened to an argument at their regular meeting Monday. The argument appeared to be about the advisability of forming a lighting district in the Ravenswood district. Then after the arguments had all been heard for and against, J. P. Neffing, a resident of East Palo Alto, let the secret out, the argument was not about the district, but about the name. So broke forth again the old argument which has become a joke to the rest of the county, but still seems to be taken seriously by the residents of the section of many names.

Monday was the date set for the hearing of the petition of the residents of the south eastern corner of the county for the formation of a lighting district. The petition called this section Rav-

FREIGHT RATES HIGHER IN 1880

With such oddities as smut machines, Chinamen's corpses and pulo in bales listed as regular items of commerce, California freight rates in 1880 averaged higher than those of today, according to a pioneer freight tariff folder which has just come into the hands of J. T. Saunders, freight tariff manager for Southern Pacific.

This tariff, issued in 1880 by the old Sacramento and Placerville railroad, indicated that the movement of 60,000 pounds of grain from Folsom to Sacramento cost the shipper \$81, whereas today the transportation charge would be \$48. The rate on 40,000 pounds of coal between the same points has dropped from \$75 to \$54.

"Considering the relatively greater purchasing value of the 1880 dollar," Saunders said, "present freight rates are far below those of 45 years ago."

"Few people have any idea of the extent to which freight rates have been reduced in the even so recent a period as that since the beginning of 1921. These savings to the American shipping public from reduced rates aggregated \$1, 611,000,000 during the years 1922, 1923 and 1924. This is the total amount which shippers would have paid for transportation service in those years, over and above what they did pay, had the rates remained at the peak of 1921."

"In addition to being cheaper, freight service is faster and better than ever before in the history of American railroads. Merchants and manufacturers everywhere are enabled to carry smaller inventories due to swifter, more dependable rail service, and thus benefit by an actual cash saving in addition to the economies due to lower rates."

FILES NOMINATION PAPERS

Doctor C. V. Thompson, supervisor of the Fifth township, is to be opposed at the primary election on August 31, M. R. Mattei, a prominent Native Son of that township, has filed his nomination papers and is to make the raise. He has a large following in the township among the younger element, who will work hard to secure the coveted office which has been held by Dr. Thompson for the past eight years. The contest is to be a spirited one. Every voter will be seen and his suffrage solicited.

The Water Bearer

CHAPTER XI—Continued

Caleb was still bitter enough himself to feel scant sympathy with Baxter's condition, serious as Fields considered it to be. Baxter hadn't been drunk when he went to Hermanos valley to talk with Betty and her father. Hinkley was waiting for him at the Ferry building. The engineer had managed to subtly but completely discipline himself. In old, baggy trousers, with a shabby hat and a battered bag, he looked like an unsuccessful farmer. The keenness of his eyes was dimmed by yellow-lensed spectacles with imitation tortoise shell rims. He looked approvingly at Caleb's rough clothes.

"That's the idea. No sense in us looking like tourists or in any way prosperous or otherwise obtrusive. I'm fairly well known over there, too, and if it got out I was on the ceiling around the hill, the price of real estate would be apt to soar immediately. There is always the chance of Oakville learning something and suspecting more."

"There's a big lot of watershed we'll have to accumulate to insure purity. And you've got to be canny. Your role is that of a foolish young Easterner with money on whom land worth comparatively little may be unloaded at a fair price. A price they will think big until the project is complete."

"It's fair enough all round," he went on. "We'll pay 'em more than market value because at present there is no actual market for their land, hasn't been for years, not likely to be. The boat's in."

Through the waiting room windows they could see the train as passengers filed past to the exits. Caleb, released from attention to Hinkley's talk—they had stood apart from the crowd—suddenly caught his breath.

Less than ten feet from him, in front, were Betty Clinton and her father. They were going back to El Nido. That was evident and it suited Caleb. Before he returned to Golden he could carry out his intention of seeing them.

Baxter could wait. He had waited until Clinton's spare figure found a way through the thinning crowd that tumbled onto the Ferry apron and, with Betty following, climbed the stairs to the upper deck. Hinkley went forward to the open end of the ferry, first through the gates to their train.

Hinkley and Caleb took rooms at the same hotel that Caleb had patronized. Part of their trip was to be made in a car shabby enough to preclude any idea of wealth for its occupants, part in a buggy, on horseback, and afoot.

Caleb took the lead and conducted Hinkley up Hermanos canyon, into the Boca-Blanca valley, to the source of Gabilan and around about the Sink itself. The third day was given up to an inspection of the foothills that bound the Sink and a checking up of Caleb's demonstrations in proof of the clay that underlay the gravel and lined its sides.

"I am entirely satisfied, so far," said Hinkley when they returned to their hotel after this last trip. "This is Saturday. I'd like to call a halt until Monday. I always aim at spending the weekend in the bosom of my family. If I can compass it. We have done famously. I can confirm your findings with enthusiasm, my son."

Hinkley nodded at the young man with a smile that radiated health and good nature. They had got along wonderfully in their common interest in a project that promised full success.

"Goin' to leave us?" the landlady of the hotel came out upon the veranda where Caleb and Hinkley were chatting. Bain had fallen heavily and held them indoors to check over the notes and maps they had made. Now it was clearing up.

"I'm going to Golden on the fourteen," said Hinkley. "Be back Monday. Mr. Warner—are you coming with me, Warner?"

"I think not. I'll do a little fishing. Maybe take a shot at those quail we saw on Gabilan. You'll find me here waiting for you."

"Cloudburst up country," said the hotelkeeper. "This here local rain was the tag of it. Crick's risin' fast. Black as sin over Gabilan. She's a weather-breeder, is that old mountain. Power of current comin' down stream after this little spate of weather."

"Let's go out and have a look," suggested Hinkley.

Oyote creek had risen, was rising. In a volume that testified to the truth of the landlady's assertion that there had been a cloudburst. He accompanied them to the bridge, scorned any waterproof for the now swiftly falling rainfall and the three leaned over the rail and watched the sliding torrent of brown water. Caleb marked the waterline on the cement of the bridge abutments, noting it by certain stains in the cement. It was covered within five minutes by as many inches.

"Rising fast," he commented.

"She'll rise for an hour or so after that burst," said the landlady. "She comes a kyoottin' an' a tootin' in the winter when Gabby gets to makin' rain in earnest."

Caleb saw Hinkley off. Then he ordered a lunch put up. The landlady made little comment as he handed it to him.

"If you aim to be out late you better take a slicker along," he said. "By the feel of the air an' my rheumatic knee, old Gabby ain't through yet. Likely to be another cloudburst afore sundown. Black as the inside of yore hat over there."

Caleb thanked him and took his advice. He was bound for Hermanos valley and he crossed the bridge and started up Hermanos creek with his shoulders squared and his jaw set. Nothing was going to prevent him getting an audience with Clinton. He had certain things to set forth and, stormy though that weather would probably be in the beginning, he would let himself hold no doubt as to its favorable conclusion.

CHAPTER XII

On the Bridge

It was a five mile walk to the canyon head, another mile to the ranch. In

Caleb's condition the distance, both ways, meant little. He knew the dining-hour at El Nido. It was five when he set out and this should bring him to the junction of valley and canyon in the early evening. A pipe to top off his cold supper and he would arrive at the ranchhouse soon after the Clinton meal was over. So he would stand the best chance of finding both Betty and her father at home, would be apt to find Clinton in congenial mood.

The darkness deepened to premature twilight as Caleb reached mid-canyon. The trail was dim and water, racing down the canyon sides from the storm, had rendered the track slippy and treacherous, slackening up his pace. He filled his pipe and lit it. Before the bowl was glowing evenly there came a moon from the south, the boughs above him creaked and bent protestingly and the breeze blew chilly down the trail. Leaves and twigs came fluttering down in the dusk.

Caleb put on his slicker. Thick though the leafy screen above him was, he felt sure that a heavy down-pour was imminent. The first drops of it spattered heavily on the green thatch before he had gone a hundred yards. Then, suddenly, effectively, as if the bottom of some aerial cistern had given away, the rain drove down, beating through the trees in vertical lines, plunging into the swollen creek, hissing in continuous spouts that rattled thickets and pitted the soft soil, rattling on Caleb's slicker like a discharge of small shot, with force enough to be distinctly felt.

There was little actual danger. Caleb could easily scramble through the brush to immunity at any moment. And he pushed on. He could see the path fairly well though this was the

He Filled His Pipe and Lit It.

twilight, hastened by the still overcast sky. He trudged on at the best pace he could muster over the slippery red soil but, when he came to the final bend, the neck of the bottle, it was so dark that he could only make out the suspension bridge by its silhouette where it crossed the gut of surging torrent, close to the footboards. Soon it would be over it.

Caleb doubted whether the bridge would stand any great resistance to water pressure. He remembered fissures in the rocky buttresses where the cables were anchored, fissures ever widened and deepened by successive winter assaults of storm waters. He was hungry and he decided to eat his supper and wait for moonlight before he crossed the gut and struck the ridge trail down to El Nido.

By the time he had finished eating, a "remolus light above the western ridge proclaimed imminent moonrise and the efforts of the luminary to conquer the already retreating masses of cloud in their disorderly flight. Caleb stepped onto the bridge cau-

Mr. Meek Puts \$30 on Right Side of Ledger

The meek little man counted his change and moved away from the railroad ticket window. He looked worried, counted again and edged ditheringly back.

"That you made a mistake in the change," he said apologetically.

"The sleek-haired clerk became chill with sudden hauteur.

"Sorry, but you should have rectified that when I gave it to you. Can't do anything now."

"But," said the little man, peering pitifully over his glasses, "I didn't notice it at the—"

"Rules of the company," recited the clerk pompously. "We can't risk getting gyped by people who don't count their change. Others waiting."

"Are you sure you can't do anything about a serious error like this?" The agonized anxiety in the small

voice would have melted a human heart.

"Yes. Absolutely! Now, will you move on or must I—"

"No, there's no need of that," sighed the lamb, melting into the passing throng. "You're just out \$30, that's all."

Retrospect

In looking backward over life I sometimes see much of sadness, and feel life to be a rather sorrowful thing; but far, far oftener it is the laughter that I hear, and it is smiling faces that look into mine. Even men who were hateful, driven by the memories of merciless drives, are softened for the reason that time effaces their evil, bringing out more and more whatever of pleasantness they had in them. There were very, very few indeed who meant the evil. At a rate, time shall give them the benefit of the doubt.

An Expert

"Julia, do you know what love is?" The young man put the question in an intense voice.

"Yes," replied the girl, firmly.

"But do you really know?" he asked again.

"Have you ever been the object of a love as undying as the sun, as all-pervading as the air, as wonderful as the stars? Have you ever loved and been loved like that, Julia?"

In an agony of suspense he waited for her reply.

"Have I?" she murmured. "If you will come up into our boxroom, I can show you a trunk full of letters, and in my jewel-case are seven engagement rings!"

lously, either hand on the guide-rope of steel wire, held up by iron stanchions that were bolted through the floor planks. The structure shuddered under his tread as he felt his way along. Suddenly the rhythm of its trembling changed and became so irregular as to force him to a standstill. The jolting increased. Some one else was on the bridge, coming from the valley side. Was it Padilla?

He held his ground. The boards were not wide enough to permit of two passing breast to breast. They would have to slide about each other. If it was Padilla and the Mexican wanted to dispute the crossing, there would be trouble. Caleb was not going to turn back. He hesitated whether to call out as the other came on, his tread sounding distinctly.

Then the moon suddenly broke through its veil and sent a transient ray into the mouth of the gorge. Out of the dark, as if a spotlight had been projected against a black curtain, leaped the face of Ted Baxter; the features incredulous at first, swiftly changing, before the light failed, to a sneering, taunting mask. His voice sounded out of the dark as the light vanished.

"What the devil are you doing up here?"

The query held a scornful emphasis that aroused in Caleb such a swift, consuming hatred in answer to the challenge, as he had never known himself capable of. This man, within reach, once his friend, had done him treacherous injury. Now was the time to strike a blow.

"I've been looking for you, Baxter," he said. "Though I didn't exactly expect to meet you here. I know everything you've done. It's opened my eyes. I had an idea that you were fairly decent, that you possessed at least some remnants of honor, some rays of friendship. You haven't got any more principles than a yellow cur. You—"

"I haven't, eh?" broke in Baxter. The moon came glimmering through again. "Because I've beaten you in a business deal where you thought you were so amazingly smart, you get sore! You went sneaking around yourself, trading on friendship and pretending to make love to a girl, so that you could find out what you wanted about Hermanos valley and then have it condemned for a reservoir. You talking about honor! You tried to hoodwink Clinton and I found it out and saved him. Rags of friendship? You pretended to be my best friend and, when it came to a showdown, you lied to me and said you didn't have any money."

Why? Because you lacked the backbone to come out and say so, because you were so d-d Yankee, afraid you might lose a penny."

A lurch of the bridge, a sudden wrench. A chilly wave stopped over the boards. It flowed about the ankles of both of them. Caleb stood with one hand from the other on the hand-rail, balancing himself, whipped to fury by each word of Baxter. But he did not interrupt him. He was waiting for the light to get stronger. He could see the other but dimly, his face thrust forward, shooting out his words, trying to make them sting deeper.

"That was business and I got the best of you. To-h-h with all that! That isn't what you're sore about. It's because I've cut you out with the girl. Why don't you own up to it?" Baxter laughed mockingly.

"You don't suppose, you poor boob, that she would ever look twice at a man like you as a lover. You've got diluted maple sirup in your veins. She's got blood, red, hot! I kissed her less than half an hour ago. I—"

Fury overmastered Caleb. Baxter had touched the sensitive core of the whole matter—Betty Clinton! He leaped for his man and felt the well-aimed, smashing impact of Baxter's fists to neck and jaw as he himself drove hard to the body. But the straight punch that nearly found the fatal "point" jolted him badly and left him dizzy. He grappled for a clinch as the moon sailed out, wading through a shallow sea of splintered clouds.

(TO BE CONTINUED.)

The Notre Dame track and field squad has elected Della Maria of Chicago captain for 1927. He is a star sprinter.

William T. Tilden II, tennis champion, was given his first racket when he was five years old, and at the age of seven won his first tournament.

Brains are apparently a requisite to wrestlers. "Strangler" Lewis, Jim Londos, Renato Gardini and Wayne "Big" Munn are all college graduates.

Now that Jack Dempsey is going to risk his heavyweight title, flaccid fans are wondering whether his new nose can withstand punching as well as the old one did.

Rowing may be added to the sports program of the Olympic club of San Francisco. Clyde King, former Annapolis star, has offered to instruct the candidates.

Nick Busch of Georgetown university, football player and boxer, has two degrees and soon expects to become a doctor of philosophy. He has never failed in an examination.

Kelly in World Series

George Kelly, McGraw's versatile player, has been in four world series—1921-22-23-24. And he has played three different positions—first, second and center field. While Kelly has always rated as a consistent 300 clubber, he has never reached the figure in the fall playoff. In 1924 he experienced his best series, hitting .290. In 1922 he failed to count a single marker, though batting .278. In his first series Kelly hit .233. His fielding also has been excellent.

Hughey Critz, Cincinnati second baseman, had the rare experience of going to bat five times and walking each time in one of the games in the St. Louis series.

The Minneapolis baseball club obtained Harry M. Gowdy, catcher, when George K. Belden, president of the Millers, drew for the player, with Richard Meade, president of Toledo. Both Minneapolis and Toledo claimed Gowdy when Columbus asked waivers on him.

Record for Jess Sweetser

Jess Sweetser, newly crowned British amateur golf king, first came into prominence in 1920, when he won the Intercollegiate championship. Sweetser was a Yale student at the time. Two years later he blasted his way to the top flight of the country's amateur, annexing the national event at Brookline. The following season Sweetser came near defending his title successfully, finally losing to Max Marston at Flossmoor, 1 up on the thirty-eighth.

Francis Ouimet

Francis Ouimet of Boston, who rose to golfing fame 13 years ago by defeating the famous British professionals, Harry Vardon and Ted Ray, in a playoff for the open championship, is the second oldest member of the American team which defended the International Walker cup against Great Britain on the St. Andrew's links of Scotland.

Recent campaigns indicate that the thirty-three-year-old amateur star of 1923—the first sinner-punished—has passed the peak of his career. But Ouimet still ranks among America's foremost players.

A year after his memorable battle against Ray and Vardon, Ouimet came through to mount the amateur throne, while in 1920 he was runner-up to Chick Evans for the title. Since then he has been a consistently brilliant performer, failing to tie Bobby Jones and Willie Macfarlane for the national open crown last year only after he had lost three strokes on the first hole when his ball struck a tree.

Ouimet, a strong match player who never can be counted out without a plucky fight, has been one of the game's most popular figures and enjoys the distinction of never having been beaten in three previous Walker cup singles contests, although he finished all square with Roger Wethered in a match in 1923.

In the course of his long and brilliant career, Ouimet has won many titles. He has held the Massachusetts amateur crown a half dozen times and won such outstanding events as the Western amateur and North and South championships. He captured the historic St. George's vase the last time the U. S. Walker cup team went abroad.

Gade to Try Channel

Millie Gade, New York woman, and a mother, has arrived in France to attempt to swim the English channel. Last year she was in sight of Dover Lights and had to give up. Her children have often watched her practicing in the Hudson river.

Tex Rickard's Stadium

Tex Rickard announced the completion of plans for his contemplated \$2,000,000 outdoor stadium, which he expects to be available next summer. A site in Long Island City is under consideration.

Rickard said the public demand for a suitable arena to stage collegiate football, professional soccer and major boxing contests would require a structure capable of seating 100,000 spectators.

"The ball park has been outgrown—the football spectator demands an arena which will get him closer to the playing field," he said.

TWO WOMEN FOUND HELP

By Reading Experiences of Other Women

Mrs. Nina Matteson, Box 206, Oxford, N. Y., writes: "If it had not been for your medicine, I could not have done my work as it should have been done. Mother told me of Lydia E. Pinkham's Vegetable Compound, and I had read in different papers what it had done for different women. She wanted me to try it, so my husband got me one bottle at first; then I took two others. Now I am feeling quite strong again."

This dependable Vegetable Compound is a household word in thousands of homes. The fourth generation is now learning the merit of Lydia E. Pinkham's Vegetable Compound.

For more than half a century, this reliable medicine has been used by women with very satisfactory results. If the Vegetable Compound has helped other women, why shouldn't it help you?

Allen's Foot-Ease

Stops the pain of Corns, Bunions and Calluses. Before putting on your shoes, sprinkle into them some Allen's Foot-Ease and walk all day or dance all evening without the nerve-racking pain of hot, tired, aching, swollen feet. It gives immediate relief. Allen's Foot-Ease the Anti-Septic, Healing Powder for the Feet, takes the friction from the shoes and gives rest and comfort. Always use it for breaking in new or tight shoes. Sold by all drug and department stores. Trial Package and Allen's Foot-Ease, Le Roy, N. Y.

W. N. U., San Francisco, No. 30-1926.

Baby Rides in Shawl

Mother and baby in South Wales share the same plaid shawl they did generations ago. The shawl is the emblem of maternity in this area and hardly a woman of marriageable age but shelters a baby with it. Her left hand clutches it firmly while her right is busy with household tasks. In this nest on its mother's arm the baby sleeps, eats or looks out cheerfully on the world. The shawl takes the place of the perambulator and go-cart.

Nervous

Carol—I can't play with this nervous tennis racket. Jack—Nervous tennis racket? Carol—Yes, it's all unstrung.—Cincinnati Times-Star.

Cheap, Too

"How can I keep postage stamps from sticking together?" "Buy them one at a time."

Descriptive Powers

"In describing the costumes at the reception, what would you say?" "Next to nothing."

Education in Sweden Within Reach of All

Among recent visitors to this country there was an educational official of Sweden, who thus outlined the school system of that country in a few words as follows:

"There are three schools in Sweden. They are the folk school, the common school and the high school. At the folk school one gets a very good foundation. There is no charge for tuition, and at this school the sons and daughters of the poorest man are assured an education."

"The common school charges a tuition of what would be, in your money, about \$20 or \$25 a year. A pupil must attend this school before going to the high school. In the event that the pupil is financially unable to pay the whole of the tuition fee, he is given a reduction. The sum I mentioned includes materials for drawing and science."

"The high school is really more like the American college than the American high school. The tuition is very cheap—perhaps \$20 in your money. Here the tuition fee includes laboratory fees and materials, just as it does in the common schools."

For bloated feeling and distressed breathing due to indigestion you need a medicine as well as a purgative. Wright's Indian Vegetable Pills are both. Adv.

The Best Critics

"Saint Ilevue was a good critic, but the best critics of all are our wives," said Dr. William Lyon Phelps of Yale, in the course of a literary causerie.

"A man," he went on, "looked up from his book the other night and said to his wife excitedly:

"Do you know what I'd have done if I'd been Abe Lincoln?"

"Yes, George, I do," said she. "You'd have settled down in New Salem in some small business or other, and spent the rest of your life growling about hard times and lack of opportunity."

Collected "Spare Parts"

A man came so frequently under the surgeon's knife at a London hospital that he made a hobby of collecting himself in glass jars and bottles. Starting with tonsils, he went on with molars and such components, until he had filled a shelf with "spare parts," carefully dated and described.

To Have a Clear, Sweet Skin

Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rub gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Advertisement.

Are you being bored to death?

MOSQUITO torture is quickly ended if you keep a can of Flit handy.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly.

Get a Flit can and sprayer today. For sale everywhere.

Leaks, but Cannot Sink

The row-raft used on the remote lakes in the wilds of Glacier National park, Montana, is a typically individual mode of water transportation that is not found any other place in the world.

They are there because the material for building them is right at hand in the primitive forests that skirt the waters' edges, and also for the reason that the narrow trails leading to these mountain lakes render it a difficult task to pack rowboats in. Besides, the row-raft is a safe conveyance for the adventurous summer tourist. It leaks but never sinks. It is made of spruce logs, with ingeniously constructed oarlocks.

A man may envy no one—only, he wouldn't mind enjoying equally good things.

IN THE LEAD

Fisher's engineering experts—skilled beyond their calling by virtue of years of continuous research and experimentation with all types of body construction—unhesitatingly aver that none but Body by Fisher—exclusively used by General Motors for Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac cars—affords the essential virtues of safety, beauty and comfort which characterize every Fisher product. Quite logically the public knows that when any improvement which really gives an enhanced measure of safety, comfort and luxury is perfected, Fisher will be the first to present it just as Fisher has created and been the first to present every important improvement in body design and construction of the past decade.

News of Menlo Park

Vacationing At Casa del Rey
Mr. and Mrs. Stuart Middlemas, who maintain a beautiful home on Oak Grove avenue, are among the guests vacationing at the Casa del Rey in Santa Cruz.

Food Sale This Morning
A food sale under the auspices of St. Joseph's Alumni will be held in the Murray building near the postoffice this morning and afternoon. Home-made pies, cakes and salads and other delicacies are to be offered for sale by a group of pretty girls, former pupils of St. Joseph's school.

Fire Monday In Pharmacy
A fire started in the roof of the Menlo Pharmacy building Monday. The fire department responded promptly and saved the structure but the interior of the building was wrecked and the drugs damaged to some extent. The origin of the blaze is not known. Mr. Bearce, the proprietor of the drug store, has leased quarters in the Murray building which he will fit up and occupy permanently.

Fire Department Banquet
The members of the Menlo Fire Department held their annual banquet at Cafe de Paris at Atherton last Wednesday evening. After the dancing was indulged in. During the evening, Captain Whitaker, chief of the department, was presented with a gold badge, suitably inscribed. Mr. Whitaker with some feeling responded to the presentation speech. The occasion was much enjoyed by all.

Graduates With Honors
Miss Catherine Tuttle, the pretty daughter of Mr. and Mrs. John Tuttle, graduated with honors recently from the Munson's Secretarial College in San Francisco and during the week secured a responsible position with the California Redwood Association of San Francisco. Miss Tuttle is also a graduate of the Sequoia Union High School. She is a very clever and competent young lady.

Gabino M. Hijo Residing Here
Gabino M. Hijo, the William Randolph Hearst of Central America and also a breeder of fast horses, is residing with his family for a short time in this locality. During the week he took a photograph of the Hellman racetrack at the P. H. Linforth place. He declared they were the finest blood animals he had ever seen. Mr. Hijo is vice-president of the permanent cattle and dairy products exposition of San Salvador.

Conclude Visit At Menlo Park
Dr. and Mrs. Guy Manson and two sons of Fresno; Dr. Manson's sister, Miss Hazel Manson and Miss Clarke Farley of Fresno have concluded a visit at the home of Mrs. James Bruce and Mrs. Dorothy Fredericks in Menlo Park. Miss Manson will return later for a week.

Entertained At Luncheon
Mrs. Mark McCann of Menlo Park was guest of honor at a luncheon given Saturday by Mrs. Edward Gillespie at her San Francisco home.

At Seabright For Two Weeks
Mr. and Mrs. George Brown and family of Menlo Park are at Seabright for a two weeks' vacation.

To Prepare Plans For Celebration
The committee appointed by the Menlo Park Improvement Association to prepare plans for the proper and fitting celebration of the opening of the Dumbarton Bridge, and consisting of F. J. Furnival, J. H. O'Keefe, John W. Morey and F. S. Becker, met on July 21st, and took steps to enlist the co-operation of the governing bodies, civic and patriotic organizations on both sides of the bay. The committee is hopeful of an enthusiastic response from all the neighboring communities.

Register Before July 31
The time for registration will expire on July 31. Register now so that you may be enabled to vote August 31. Those desiring to change their registration may do so before the end of the month. Those who want to change from Democrat to Republican or vice versa may do so before that time.

Fire At Flood Estate
The fire department was called to put out a fire at the Flood estate early Sunday morning. A stack of hay caught fire in some unaccountable way and the blaze spread to a hay press close by. The hay was burned and the press was partly destroyed. The hay and the press belonged to D. P. Flynn of Redwood City. Mr. Flynn is a lessee of the farming land of the Flood estate.

County Authorities Intervene
An attempt was made this week to cut down the live oak tree on the intersection of Oak Grove avenue and the Middlefield road and it was partly destroyed when the county authorities intervened and stopped the proceedings, begun, it is said, by the P. G. & E. Company.

Perfect Peaches 1
A box of luscious peaches was brought to town Wednesday from the home of J. J. Harcom in Stanford Park. The peaches were perfect in size, color and taste. No where in the state could they be equalled. This speaks volumes for the soil of Stanford Park.

Edward White In Town
Edward White, former immigration commissioner of San Francisco and a brother of the late Stephen M. White, former U. S. senator, was in town during the week calling on friends. Mr. White as a boy drove cattle through Menlo Park in the early sixties from his father's ranch at Watsonville. His father was at one time a candidate for governor of the state.

Sullivan Arrives Home
Thomas Sullivan has arrived from the state.

home from the east having gone to attend the Eucharistic Congress at Chicago. After the ceremonies there Mr. Sullivan made a tour of the east and Canada. He was delighted with the trip, but is glad to be back in sunny California. Looking Toward Incorporation

At the last meeting of the Menlo Park Improvement Association a committee was appointed to look into the possibility of making another move for the incorporation of the town. The matter is sponsored by Mr. Barron.

To Regulate Garbage Disposal
Supervisor John Macdonald has employed a man to regulate the dumping of garbage and will at the end of the Bay road at Cooley Landing and garbage must not be dumped into the bay and not along the approaches.

Newbridge Park Scene of Mirth
Newbridge Park was the scene of a happy gathering last Sunday when crowds gathered to partake of the luncheon spread under the wide-spreading oaks in the tract. Several valuable prizes were given away by the management. Fully five hundred persons were present, many buying lots. It is said over \$50,000 worth of property was sold. Automobiles were on the tract to convey the people to the new Dumbarton bridge which is about completed. The approach to the span will be finished on September 1. The promoters of the bridge plan to have the formal opening with a big celebration on September 9. They hope to make that day a gala event for the entire peninsula and San Francisco.

Big Week At New Menlo
This evening in the New Menlo Theatre the picture, "A Crown of Lies," Pola Negri featuring. The comedy will be "Honeycomb Feet" tomorrow evening. Johnnie Hines will appear in the "Brown Derby." Comedy the "Adventures of Moxie," No. 3 on Monday and Tuesday evening the noted picture "Paddedock" will be shown. A special attraction will be presented by May Talley, demonstrating the orthophonic phonograph.

County Authorities Intervene
An attempt was made this week to cut down the live oak tree on the intersection of Oak Grove avenue and the Middlefield road and it was partly destroyed when the county authorities intervened and stopped the proceedings, begun, it is said, by the P. G. & E. Company.

Perfect Peaches 1

Edward White In Town
Edward White, former immigration commissioner of San Francisco and a brother of the late Stephen M. White, former U. S. senator, was in town during the week calling on friends. Mr. White as a boy drove cattle through Menlo Park in the early sixties from his father's ranch at Watsonville. His father was at one time a candidate for governor of the state.

Sullivan Arrives Home
Thomas Sullivan has arrived from the state.

WOODSIDE

All Woodside is rejoicing with William Byrne over his victory in the legal action involving the possession of his home. Although there were certain equities apparent on the other side it did not seem right to us that, because of an error in the deed, he should be deprived of property which he had occupied in good faith and had cultivated for forty years.

Mr. and Mrs. P. H. Mighall are at Capitola for two weeks.

Dr. and Mrs. Alan Weeks and Mr. and Mrs. William Roth were dinner guests on Monday of Mr. and Mrs. Stewart Lowery.

Mr. and Mrs. A. H. Audiffren have just returned from a two weeks' vacation trip into the Sierras.

Mr. and Mrs. Harry Lewis of Menlo Park, driving for the first time their sedan, were week-end guests of Mr. and Mrs. Joseph L. Ross. Mrs. Ross also entertained at luncheon on Thursday.

Mr. Jos. L. Ross, Sr. and her daughter, Mrs. Grenfell.

Dr. Bradford Leavitt visited the rodeo at Salinas on Thursday.

The Woodside Fire Dept. believes that the time to start a fire is before it has fairly got started.

The department has had five calls the past week, but so swiftly did the firemen work that not one of the fires had a chance to grow to any serious proportions.

The local firemen will attempt to prove on Sunday that they can play baseball as well as they can fight fires. They will meet the Redwood City team on the Woodside grounds. The local team has the following star players: catcher, Harry Williamson and Bill O'Neill; pitchers, "Kick" Hallett and "Irish" O'Neill; 1st base, B. Beck; 2nd base, Tom Shine; 3rd base, Floyd Kelly and Frank Coel; short stop, "Peggy" O'Neill; right field, Russell Clay, Al Perullo; center, "Frenchy" Bonifant; John Volpiano; left field, Andy Moller and Emmet O'Neill.

Mrs. Samuel Pond, assisted by Mrs. Alexander D. Keyes of San Francisco, gave a luncheon on Wednesday in honor of Mrs. J. B. Murphy. The guests were Mrs. Morton Gibbons, Mrs. Silas Palmer, Mrs. Van Vlack Bishop, Mrs. Chancery Boardman and Mrs. Stewart Elliott.

VETERAN SHERIFF ARRESTS HIS OWN SON-IN-LAW
Jeremiah Croxton of Hollister and one of the oldest sheriffs in the state in point of service is on a sad mission in going to the Panama Canal to arrest his son-in-law, a defaulter. Croxton reared Geo. Williams who some time ago married Croxton's daughter. The young man was appointed a deputy tax collector under his father-in-law, who is sheriff and tax collector in the Superior Court of the State of California, in Mayfield, where he was a chum and classmate of Dan Mullen of this city. He was also a classmate of Mrs. Thomas Shine, formerly of Woodside. All the old timers know the veteran sheriff.

TO THE VOTERS OF SAN MATEO COUNTY
In announcing my candidacy for the office of County Treasurer I do so feeling that my experience handling the financial affairs of the county for the past 12 years warrants the placing of my name before you for your consideration.

As chief deputy auditor of the county my duties are so correlated with those of the treasurer that a thorough knowledge of the details of that office has been acquired, and in several instances when physical collapse due to overwork on the part of our present treasurer appeared, that knowledge and experience was called upon and was willingly thrown in to keep the system working perfectly.

It is my belief that I am successful I can assure you in the position that I leave will in no way be impaired for I shall be close enough to it to impart my experience and knowledge to my successor in order to keep those duties in perfect order.

I have been a resident of the county 20 years, twelve of those devoted to faithful service to the county, and weighing my experience and service, I feel that my selection to this important post would be a just reward and an asset to San Mateo county.

EDWARD M. STACK

FILES LAST WILL OF FATHER
Keith Ferguson has filed the last will and testament of his father, Barlow Ferguson, who died at his home in San Mateo on July 17. The will is holographic and is dated January 10, 1922.

KNIGHTS OF COLUMBUS

HOLD GOLF TOURNAMENT

In a very closely contested game of golf in the Knights of Columbus tournament at the Emerald Lake Golf Club last Saturday, Arthur W. Tye of San Mateo came home a winner with a net score of seventy-seven for the eighteen holes; Frank Ferrea of San Mateo and Dan R. Stafford of Redwood City with seventy-eight each, and Frank O'Brien of San Francisco, with an eighty-four, were the low scores for the day.

Other entries were Walter W. Pepin, Dr. Vincent L. Cosgrace, James J. McGrath and Robt. L. McWilliams of Burlingame; Frank Maloney, Frank Lynch and Joseph B. Darcy of San Mateo; Miles Sharkey, Jr., Cole Stafford, and Dr. W. H. Murphy of Redwood City.

This was the first tournament held by the Council, and as it proved to be so popular it was decided to make it an annual event hereafter.

Following the golf tournament, the "Cases" adjourned to the Fly Trap Inn at Redwood City for their annual stag dinner, at which over forty members gathered around the festive board. During the meal the gang listened to a number of speeches and were greatly entertained by the humorous stories as related by Dan Stafford and "Doc" Murphy.

After the presentation of the trophy by "Doc" Murphy, who is chairman of the "Cases" Golf committee, the entire assemblage adjourned to the club rooms of the Carmel Men's Council, where entertainment had been provided.

\$5000 ASKED IN AUTO ACCIDENT
Suit for \$5,000 as a result of an automobile accident which occurred January 5, 1926, between Beresford and Belmont, was filed this week in the Superior court in this city by Theodore Haub and his wife, Lena G. Haub. The Pacific Auto Storage Company is the defendant.

Mrs. Haub alleges she received severe spinal injuries when her husband's automobile, collided with one of the company's stages.

During the recess of Congress
all official communications addressed to Senator Shorridge at Room 200 Crocker building, San Francisco; or Room 508 Citizens National Bank building, Los Angeles, California, will be as usual receive prompt attention.

The senator's Washington address is Room 428 Senate Office Building, which is kept open for the accommodation of Californians visiting the Capital.

amount of all the taxes levied upon such property, and all costs and penalties for every year delinquent as shown by the delinquent rolls for said years and also all the liens up to the date of the execution of the order of sale, together with interest at seven per cent per annum and also the cost of redemption and penalties required under Section 3517 of Political Code computed upon the aggregate amount of the taxes for each of said years from the first day of July following the delinquency to the date of the sale hereunder, and all expenses accrued to the date of the sale under this authorization.

Said sale shall be conducted in all respects as by law governing such sales.

(SEAL)
Given under my hand and seal of office, at Sacramento, this 20th day of July, A. D. 1926.

RAY L. RILEY, Controller.

By C. E. COOPER, Deputy.

Therefore, in pursuance of law, public notice is hereby given that I will, on Tuesday, August 17th, 1926, at 10 o'clock of 900 a. m. in my office in the Court House, at Redwood City, County of San Mateo, State of California, sell in separate parcels at public auction, the highest bidder, for cash in lawful money of the United States, the said property hereinafter in said Controller's authorization described, and which authorization is hereby made a part of this notice.

Certificate No. 343
